BUSHRA SALEEM

Daharki, Pakistan | +92-3347241497

bushramalik.bscs123@iba-suk.edu.pk | GitHub | Portfolio |

PROFESSIONAL SUMMARY

Dedicated Computer Science student with strong foundation in full stack development and machine learning. Proven track record of building scalable web applications with modern technologies including React, Flask, and PostgreSQL. Academic performance in the top 5% of cohort with CGPA of 3.8/4.0. Passionate about creating efficient, user-centric solutions and continuously expanding technical expertise through hands-on projects.

EDUCATION

Bachelor of Science in Computer Science(6th sem)

Sukkur IBA University, Sukkur, Pakistan 2023 - Present **CGPA: 3.8/4.0 | Top 5% of Cohort**

Intermediate / Higher Secondary School Certificate (HSC)

Sona Public School and College, Mirpur Mathelo 2022 **Grade: A1 (84.9%)**

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript, HTML, CSS

Frameworks & Libraries: Java Swing, Pandas, NumPy, Scikit-learn, Supabase, Matplotlib ,React, streamlit

Tools & Platforms: Git, GitHub, Vercel, VS Code, Jupyter Notebook, PostgreSQL

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Database Management Systems, Web Development, Computer Networks

PROJECTS

Ai Sniff-O-Meter View on Github *Live*

Technologies: Streamlit, Sklearn,huggingface,pandas,numpy

- Developed desktop and mobile application using streamlit and ml models as logistic regression and svm and tf idfvectorization.

- Curated a 71k dataset from multiple sources such as Hc3,m4,openhermes,openorca,openwebtext, Reddit and wikipedia
- Designed intuitive GUI enabling pasted text and uploaded pdf for testing
- Generated 10 custom features via heuristics and applied research through spacy and nltk

Kitab Ghar - Book Lending Platform GitHub

Technologies: HTML, CSS, JavaScript, Supabase (PostgreSQL), Vercel *live*

- Architected full-stack book lending management system featuring user authentication, inventory tracking, and transaction management for streamlined library operations
- Integrated Supabase Backend-as-a-Service with PostgreSQL database for scalable data persistence and row-level security
- Deployed production application on Vercel platform with CI/CD pipeline achieving 99.9% uptime and optimal performance
- Designed modern, accessible interface with responsive layout supporting desktop, tablet, and mobile devices

Sleep Analysis and Prediction System

Technologies: Python, Flask, HTML, CSS, JavaScript, Scikit-learn, Pandas, NumPy GitHub

- Developed comprehensive ML-powered web application that analyzes sleep patterns and predicts sleep quality using regression and classification algorithms with high accuracy
- Designed and implemented Flask-based REST API architecture to serve trained ML models with real-time prediction capabilities
- Performed extensive data preprocessing, feature engineering, and statistical analysis using Pandas and NumPy to improve model performance
- Created responsive, mobile-first user interface ensuring seamless cross-browser compatibility and optimal user experience

Personal Portfolio Website *Technologies: HTML, CSS, JavaScript* Live Demo

- Developed and deployed personal portfolio website showcasing technical projects, skills, and professional achievements

SCHOLARSHIPS & ACHIEVEMENTS

- **MPCL Scholarship –** Awarded by Mari Petroleum for academic excellence in 2023, recognizing outstanding performance in higher education

- **Sindh Talent Hunt Scholarship –** Ranked as second highest scorer with GPA of 3.78 in foundation semester of 2023, demonstrating exceptional academic aptitude
- **Won Bookreview STHP-2023 –** First place in book review competition conducted by Sindh Talent Hunt Program, showcasing analytical and communication skills
- **Top 5% Academic Standing –** Consistently maintained position in top 5% of Computer Science cohort with current CGPA of 3.80/4.0

Extracurricular Activities and Certifications

- Worked as an active member in TechClubSibau.
- Participated in Procom26 as the team lead for "Sharingan" in the Query Quest module.

Certificates : certificates
